

Customer Support Guide

1. Password Reset

Users can reset their password using the "Forgot Password" option.

2. Account Lock

Accounts are locked after 5 failed login attempts.

3. API Authentication

A 401 Unauthorized error usually indicates an invalid API key.

4. Billing Issues

Billing disputes are reviewed within 5 business days.

5. Refund Policy

Refund requests are processed within 7 business days.

6. Email Verification

Users must verify their email before accessing premium services.

7. Subscription Management

Subscriptions can be upgraded, downgraded, or canceled from account settings.

8. Payment Failure

Payment failures may occur due to insufficient balance or expired cards.

9. Login Problems

Users should check credentials and clear browser cache.

10. Technical Support

For unresolved issues, contact technical support.
